as the prices of the plans of the big music streaming companies can differ from country to country it is difficult to compare the prices of these plans accurately therefore i decided to compare the prices of four of the biggest streaming companies in the united states in order to answer this question

this is the first time spotify has claimed a user base in excess of half a billion users with 210 million premium subscribers and 317 million on the ad supported plan however it represents a ratio of 40 paid to free listeners a ratio that seems to be in free fall

gaana mostly covers indian music while spotify offers albums from musicians from all over the world recently this app has been launched in india which simply means that now you will get to listen to indian songs as well after being launched in india in this app you can listen to songs in many languages like hindi english tamil telugu punjabi etc

spotify is the music streaming application that is a premium service its main function is that it is free of advertisements and download restrictions unlike the free spotify which has a lot of restrictions and adverts

students can receive 50 off the subscription fees for spotify premium it costs only 4 99 each month and comes with a 3 month free trial if you re eligible definitely don t miss out on this offer

this is one of the best blogs for free tips and tricks tutorials about blog adsense earn money android tips computer technology how to use security android seo tips much more which can be very very helpful for your daily life

in my view in the light of these descriptions and the many capabilities the premium plan provides it is also economically justifiable so if you still want to buy the spotify family plan and want to know more about its price in different countries i recommend you read this part to the end
